

Putting **you** in control of **your medical records**

Search for hospitals and doctors near you

Keep track of your dependent's records

Receive digital records directly from your doctor, or upload yourself

Access your records anytime, anywhere

EMPOWERING YOUR PATIENTS

Medical records in your pocket

Introducing RING

Providing users with their collated lifetime medical records on an easily accessible and cost-effective mobile and web platform.

How can RING help you?

Efficiency

Accelerate patient journeys through digital record transfers and eReferrals

Grow your Network

Connect patients to doctors through our search tool, and engage with users through CSR and promotional material

Flexibility

Integrate RING with your HIS or use as a standalone platform
